

MEMORANDUM

To: All CCID Landowners & Water Users

From: Chris White, General Manager

Date: February 7, 2014

Enclosed are forms for supplemental water requests for this year. These forms are being provided so that the District can determine the amount of water desired by growers at the price listed. The District will try to obtain this water, but there is no guarantee that all amounts can be secured. If there are more requests than a.f. available, the District will provide supplemental water on a pro-rata share.

Please return your request forms to the District no later than February 20, 2014. You may send them to the Main Office at P.O. Box 1231, Los Banos, CA 93635, or by fax: (209) 826-3184. If you have the ability to scan and email send your request to: [mmartin@ccidwater.org](mailto:mmartin@ccidwater.org).

# Central California Irrigation District Supplemental Water Application

## 2014 Pool 2--- Closing Date--- February 20, 2014

Use this application to request Supplemental Water for 2014. Although the District cannot guarantee acquisition of the requested supply, we will make every effort to do so. The District will be seeking landowners who wish to fallow their land to make water available for other landowners in the District. The anticipated price will be \$250 per acre foot. Following are some key elements applicable to every Application:

1. Applications must include a quantity, account number, signature, and be accompanied by a \$20 per acre-foot of request deposit.
2. If the District is unable to acquire the entire requested quantity of Supplemental Water, the supply will be allocated on a pro-rata basis, based on acreage owned or leased by the applicant.
3. Upon written request, this Application may be modified or revoked. The deposit associated with a withdrawn Application will be returned at the end of the water year providing the District has not yet taken action to acquire water in reliance upon the application. Once the District has taken action to secure water in reliance on applications, applicants are obligated to purchase the Supplemental Water unless the District or Applicant can find another buyer.
4. Once the water has been acquired, the District will invoice the applicant for the final cost and payment will be due within 30 days. If payment is not received by the due date, there will be a 5% penalty plus interest charged.
5. Supplemental Water cannot be transferred outside of the District.

I hereby request the quantity of Supplemental Water shown below. I have read and understand the provisions set-forth in this Application. I recognize that the \$250 per acre foot is for the acquisition of Supplemental Water and that this price does not include the \$22.30 per a.f. that the District will charge for conveyance, operation and maintenance (O&M), and administration.

\*Quantity Requested: \_\_\_\_\_ AF      Enclosed Deposit (AF x \$20/AF): \$ \_\_\_\_\_

**\*I recognize that Pool 2 water, which is made available through other growers fallowing land, will be made available each month consistent with the monthly allocation schedule.**

I am a CCID landowner and wish to apply for Supplemental Water.
