A handwritten signature in dark ink, appearing to be "CW", is written over the printed name "Chris White, Manager".

Date: September 30, 2015

The Exchange Contractors and Central California Irrigation District (CCID) working with the United States Bureau of Reclamation (Reclamation) were able to preserve our summer allocation through the end of August. As we described earlier, this was accomplished by Reclamation borrowing water that was already in San Luis Reservoir to meet our demand, and then paying back borrowed water from now through this fall as pumping has been resumed. The pumping for payback will be a project priority and as we have previously notified our consumers, **we presently do not have additional fall water available for allocation.**

If you have saved some of your summer allocation or well credits and plan to use them in September through November, please know that we are currently planning to deliver water through Thanksgiving, and will stop deliveries at that time until the 2016 season. Thank you for your patience, cooperation and careful water use this year.

Should you have any questions please call the Main Office at (209) 826-1421.
